AGING TRANSPORT SYSTEMS RULEMAKING ADVISORY COMMITTEE (ATSRAC)

Sub-Task # 8.3	Description: Develop Guidance for Wire System Training Program

Concept:
- Based on the results of WG 5 identify different target groups for receiving the training
- Identify the content of the minimum required training for every target group (depending what they do on the aircraft)
- Present the WG proposals (AC and appendices) to ATSRAC for approval

Work Plan:
- Identifying the target groups depending from their tasks on the aircraft
- Select the detailed minimum training items for every target group
- Presentation of the proposal to ATSRAC for approval
- Update of the results depending on the inputs of ATSRAC or other WGs

Deliverables:
- Detailed training program for each target group

Status:
- 6 different target groups are identified
- Minimum training content for each target group is selected
   Note: 5th and 6th target group were added to cover engineering personnel and maintenance planners
- AC wording and appendices are completed.

Roadblocks:
- None at this time

Assistance Needed:
- None.
